Section 4: FIRST AID MEASURES

4.1. Description of first aid measures

General advice
Remove contaminated clothing and shoes. If medical advice is needed, have product container or label at hand.

Eye contact
Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Hold eyelids apart and consult an physician.

Skin contact
Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Wash contaminated clothing before reuse. May cause sensitization by skin contact. In the case of skin irritation or allergic reactions see a physician.

Inhalation
Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.

Ingestion
If swallowed, rinse mouth with water (only if the person is conscious). If swallowed, do not induce vomiting: seek medical advice immediately and show this container or label.

Self-protection of the first aider
First aider: Pay attention to self-protection!!

4.2. Most important symptoms and effects, both acute and delayed

Symptoms
Repeated or prolonged skin contact may cause skin irritation and/or dermatitis and sensitization in susceptible persons. Irritating to eyes. Redness.

4.3. Indication of any immediate medical attention and special treatment needed

Note to physicians
May cause sensitization by skin contact. May cause sensitization of susceptible persons. Treat symptomatically. Small amounts of methanol (CAS 67-56-1) are formed by hydrolysis and released upon curing. Small amounts of 2-butanone, oxime (CAS 96-29-7) are formed by hydrolysis and released upon curing.
