

This safety data sheet was created pursuant to the requirements of: Regulation (EC) No. 1907/2006 and Regulation (EC) No. 1272/2008

HM 4278

Supercedes Date: 29-Oct-2021

### Revision date 04-Jan-2023 Revision Number 2

This Safety Data Sheet is prepared voluntarily: it is not required according to Article 31 of Regulation (EC) No 1907/2006

## **SECTION 1: Identification of the substance/mixture and of the company/undertaking**

1.1. Product identifier

Product Name	HM 4278
Product Name	

Pure substance/mixture Mixture

1.2. Relevant identified uses of the substance or mixture and uses advised against

Recommended use	Hot-melt adhesives

Uses advised against None known

## 1.3. Details of the supplier of the safety data sheet

<u>Company Name</u> Bostik Limited Common Rd ST16 3EH Stafford UK Tel: +44 (1785) 27 26 25 Fax: +44 (1785) 25 72 36

### E-mail address

SDS.box-EU@bostik.com

## 1.4. Emergency telephone number

United Kingdom

Bostik: +44 (1785) 272650 NHS: 111

## **SECTION 2: Hazards identification**

## 2.1. Classification of the substance or mixture

Regulation (EC) No 1272/2008

This mixture is classified as not hazardous according to regulation (EC) 1272/2008 [CLP]

### 2.2. Label elements

This mixture is classified as not hazardous according to regulation (EC) 1272/2008 [CLP]

Signal word None

### Hazard statements

This mixture is classified as not hazardous according to regulation (EC) 1272/2008 [CLP]

## 2.3. Other hazards

Contact with product at elevated temperatures can result in thermal burns.

### PBT & vPvB

This mixture contains no substance considered to be persistent, bioaccumulating or toxic (PBT). This mixture contains no substance considered to be very persistent nor very bioaccumulating (vPvB).

## **SECTION 3: Composition/information on ingredients**

#### 3.1 Substances

Not applicable

### 3.2 Mixtures

The product contains no substances which at their given concentration, are considered to be hazardous to health

### Full text of H- and EUH-phrases: see section 16

This product does not contain candidate substances of very high concern at a concentration >=0.1% (Regulation (EC) No. 1907/2006 (REACH), Article 59)

## SECTION 4: First aid measures

#### 4.1. Description of first aid measures

General advice	Show this safety data sheet to the doctor in attendance. If medical advice is needed, have product container or label at hand.	
Inhalation	<b>Molten</b> . Move to fresh air in case of accidental inhalation of vapours or decomposition products. <b>Solid:</b> . Not an expected route of exposure.	
Eye contact	<b>Solid:</b> In case of eye contact, remove contact lens and rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. <b>Molten</b> . Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Contact with molten materials requires immediate medical assistance.	
Skin contact	<b>Solid:</b> . Wash skin with soap and water. <b>Molten</b> . After contact with molten product, cool skin area rapidly with cold water. For severe burns, immediate medical attention is required. Do not remove clothing if adhering to skin. Removal of solidified molten material from skin requires medical assistance. Do not try to removed solidified material from the skin.	
Ingestion	Get immediate medical attention. Do not induce vomiting without medical advice.	
4.2. Most important symptoms and effects, both acute and delayed		
Symptoms	Contact with molten substance may cause severe burns to skin and eyes.	
4.3. Indication of any immediate medical attention and special treatment needed		
Note to doctors	Burns caused by molten material must be treated clinically. Treat any burns as thermal burns, after decontamination.	

## SECTION 5: Firefighting measures

### 5.1. Extinguishing media

HM 4278	
Supercedes Date:	29-Oct-2021

	—
Suitable Extinguishing Media	CO2, dry chemical, dry sand, alcohol-resistant foam.
Unsuitable extinguishing media	Do not use straight streams.
5.2. Special hazards arising from the	he substance or mixture
Specific hazards arising from the chemical	The product is insoluble and floats on water. The melted product can cause severe burns.
5.3. Advice for firefighters	
Special protective equipment and precautions for fire-fighters	Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. Use personal protection equipment.
SECTION 6: Accidental relea	ase measures
6.1. Personal precautions, protecti	ve equipment and emergency procedures
Personal precautions	Ensure adequate ventilation. Avoid contact with hot, molten product.
Other information	Where possible allow molten material to solidify naturally.
For emergency responders	Use personal protection recommended in Section 8.
6.2. Environmental precautions	
Environmental precautions	Do not flush into surface water or sanitary sewer system.
6.3. Methods and material for conta	ainment and cleaning up
Methods for containment	Molten . Cover with dry sand/earth.
Methods for cleaning up	<b>Solid:</b> . Take up mechanically, placing in appropriate containers for disposal. <b>Molten</b> . Where possible allow molten material to solidify naturally. Use appropriate personal protective equipment (PPE). Carefully shovel or sweep up spilled material and place in suitable container. Avoid generating dust. Clean contaminated surface thoroughly.
Prevention of secondary hazards	Clean contaminated objects and areas thoroughly observing environmental regulations.
6.4. Reference to other sections	
Reference to other sections	See section 8 for more information. See section 13 for more information.
SECTION 7: Handling and storage	
7.1. Precautions for safe handling	-
Advice on safe handling	Avoid contact with skin and eyes. Wash thoroughly after handling. Take precautionary measures against static discharges. Use adequate ventilation and/or engineering controls in high temperature processing to prevent exposure to vapours. Facilities for quickly drenching the body should be provided within the immediate work area for emergency use where there is a possibility of exposure.
General hygiene considerations	Handle in accordance with good industrial hygiene and safety practice.
7.2. Conditions for safe storage, including any incompatibilities	
Storage Conditions	Store in a cool, dry area away from potential sources of heat, open flames, sunlight or other chemicals.

HM 4278 Supercedes Date: 29-Oct-2021

Recommended storage temperature       Keep. at temperatures between 10 and 35 °C.         7.3. Specific end use(s) Specific use(s) Hot-melt adhesives.       Specific use(s) Hot-melt adhesives.         Risk Management Methods (RMM)       The information required is contained in this Safety Data Sheet.         Other information       Observe technical data sheet.         Sectific use(s) Hot-melt adhesives.       This product, as supplied, does not contain any hazardous materials with occupational exposure limits         8.1. Control parameters       Exposure controls/personal protection         9.1. Control parameters       This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region specific regulatory bodies         Derived No Effect Level (DNEL)       No information available         Predicted No Effect Concentration (PNCC)       No information available         Sectific enduse:       Wear safety glasses with side shields (or goggles). Eyewash fountains should be protection.         Personal protective equipment Eyeface protection       Wear safety glasses with side shields (or goggles). Eyewash fountains should be protection.         Hand protection       No information available.       Nore insorad E N 3/4.         Hand protection       No information available.       Nore insorad E N 3/4.         Stin and body protection       No information available.       Nore insorad E N 3/4.         Stin and b			
Specific use(s) Hot-melt adhesives.       Risk Management Methods (RMM) The information required is contained in this Safety Data Sheet.         Other information       Observe technical data sheet.         SECTION 3: Exposure controls/personal protection         8.1. Control parameters.         Exposure Limits       This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region specific regulatory bodies         Derived No Effect Level (DNEL)       No information available         Predicted No Effect Concentration (PNEC)       Rolten . Ensure adequate ventilation, especially in confined areas. Vapours/aerosols must be exhausted directly at the point of origin.         Personal protective equipment Eyeface protection       Wear safety glasses with side shields (or goggles). Eyewash fountains should be provided in areas where there is any possibility that workers could be exposed to the substances; this is irrespective of the recommendation involving the weating of eye protection.         Hand protection       Heat resistant gloves are recommended when handling molten materials. Solid: . For operations where proheged or repeated shin contact may occur, impervious gloves should be worm. Gloves must conform to standard EN 374         Skin and body protection       Noine Amber Granules         9.1.Information on basic physical and chemical properties Physical state Solid       Noine Known         Prospectal state Colour       Granules Granules       None known         No data available       None known <th></th> <th>Keep at temperatures between 10 an</th> <th>d 35 °C.</th>		Keep at temperatures between 10 an	d 35 °C.
Hot-melt adhesives. Risk Management Methods (RMM) The information required is contained in this Safety Data Sheet. Other information Observe technical data sheet. SECTION 8: Exposure controls/personal protection 8.1. Control parameters Exposure Limits This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region specific regulatory bodies Derived No Effect Level (DNEL) No information available Predicted No Effect Concentration (PINEC) 8.2. 	-	
limits		
Lower flammability or explosive	No data available	
limits		
Flash point	> 200 °C	
Autoignition temperature	No data available	None known
Decomposition temperature		None known
pH		Not applicable. Insoluble in water.
pH (as aqueous solution)	No data available	None known
Kinematic viscosity	No data available	None known
Dynamic viscosity	4 - 6 Pa.s	@ 204 °C
Water solubility	Insoluble in water.	
Solubility(ies)	No data available	None known
Partition coefficient	No data available	None known
Vapour pressure	No data available	None known
Relative density	No data available	
Bulk Density	No data available	
Liquid Density	No data available	
Relative vapour density	No data available	None known
Particle characteristics		
Particle Size	No information available	
Particle Size Distribution	No information available	
9.2. Other information	400	
Solid content (%)	100	
Softening Point	179 - 189 °C	
VOC content		No data available

9.2.1. Information with regards to physical hazard classes Not applicable

9.2.2. Other safety characteristics No information available

SECTION 10: Stabilit	ty and reactivity
----------------------	-------------------

10.1. Reactivity		
Reactivity	No information available.	
10.2. Chemical stability		
Stability	Stable under normal conditions.	
Explosion data		
Sensitivity to mechanical	None.	
impact Sensitivity to static discharge	Fine dust dispersed in air, in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.	
10.3. Possibility of hazardous reactions		
Possibility of hazardous reactions	None under normal processing.	
10.4. Conditions to avoid		
Conditions to avoid	Extremes of temperature and direct sunlight. To avoid thermal decomposition, do not overheat. Do not add water or other volatile material to molten adhesive. static discharge	

sparks and static electricity.

(electrostatic discharge). Under dusty conditions avoid all sources of ignition, including

10.5. Incompatible materials		
Incompatible materials	Strong oxidising agents, strong acids, and strong bases.	
10.6. Hazardous decomposition pr	oducts	
Hazardous decomposition products	Carbon monoxide. Carbon dioxide (CO2). Hydrocarbons.	
SECTION 11: Toxicological	nformation	
11.1. Information on hazard class	es as defined in Regulation (EC) No 1272/2008	
Information on likely routes of exp	osure	
Product Information		
Inhalation	Based on available data, the classification criteria are not met.	
Eye contact	Based on available data, the classification criteria are not met.	
Skin contact	Based on available data, the classification criteria are not met.	
Ingestion	Based on available data, the classification criteria are not met.	
Symptoms related to the physical, chemical and toxicological characteristics		
Symptoms	No information available.	
Acute toxicity		
Numerical measures of toxicity		
-	d based on chapter 3.1 of the GHS document	
Delayed and immediate effects as	well as chronic effects from short and long-term exposure	
Skin corrosion/irritation	Based on available data, the classification criteria are not met.	
Serious eye damage/eye irritation	Based on available data, the classification criteria are not met.	
Respiratory or skin sensitisation	Based on available data, the classification criteria are not met.	
Germ cell mutagenicity	Based on available data, the classification criteria are not met.	
Carcinogenicity	Based on available data, the classification criteria are not met.	
Reproductive toxicity	Based on available data, the classification criteria are not met.	

STOT - single exposure	Based on available data, the classification criteria are not met.
STOT - repeated exposure	Based on available data, the classification criteria are not met.
Aspiration hazard	Based on available data, the classification criteria are not met.
11.2. Information on other hazards	<u>8</u>
11.2.1. Endocrine disrupting prop	erties
Endocrine disrupting properties	No information available.
11.2.2. Other information	
Other adverse effects	No information available.
SECTION 12: Ecological info	ormation
12.1. Toxicity	
Ecotoxicity	
12.2. Persistence and degradability	<u>/</u>
Persistence and degradability	No information available.
12.3. Bioaccumulative potential	
Bioaccumulation	There is no data for this product.
12.4. Mobility in soil	
Mobility in soil	No information available.
12.5. Results of PBT and vPvB assessment	
PBT and vPvB assessment	No information available.
12.6. Endocrine disrupting properties	
Endocrine disrupting properties	No information available.
<b>12.7. Other adverse effects</b> No information available.	ide yet ion e
<b>SECTION 13: Disposal cons</b>	Iderations

### 13.1. Waste treatment methods

Waste from residues/unused products	Dispose of waste in accordance with environmental legislation. Dispose of in accordance with local regulations.
Contaminated packaging	Do not reuse empty containers.

European Waste Catalogue	08 04 10 waste adhesives and sealants other than those mentioned in 08 04 09
Other information	Waste codes should be assigned by the user based on the application for which the product was used.

## **SECTION 14: Transport information**

Land transport (ADR/RID) 14.1 UN number or ID number 14.2 Proper Shipping Name 14.3 Transport hazard class(es) 14.4 Packing group 14.5 Environmental hazards 14.6 Special Provisions	Not regulated Not regulated Not regulated Not regulated Not applicable None	
IMDG		
14.1 UN number or ID number	Not regulated	
14.2 Proper Shipping Name	Not regulated	
14.3 Transport hazard class(es)	Not regulated	
14.4 Packing group	Not regulated	
14.5 Marine pollutant	NP	
14.6 Special Provisions	None	
14.7 Maritime transport in bulk	Not applicable	
according to IMO instruments		
Air transport (ICAO-TI / IATA-DGR)		

14.1	UN number or ID number	Not regulated
14.2	Proper Shipping Name	Not regulated
14.3	Transport hazard class(es)	Not regulated
14.4	Packing group	Not regulated
14.5	Environmental hazards	Not applicable
14.6	Special Provisions	None

## Section 15: REGULATORY INFORMATION

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

#### European Union

Take note of Directive 98/24/EC on the protection of the health and safety of workers from the risks related to chemical agents at work

Check whether measures in accordance with Directive 94/33/EC for the protection of young people at work must be taken.

Take note of Directive 92/85/EC on the protection of pregnant and breastfeeding women at work

#### Registration, Evaluation, Authorization, and Restriction of Chemicals (REACh) Regulation (EC 1907/2006)

#### SVHC: Substances of Very High Concern for Authorisation:

This product does not contain candidate substances of very high concern at a concentration >=0.1% (Regulation (EC) No. 1907/2006 (REACH), Article 59)

### EU-REACH (1907/2006) - Annex XVII - Substances subject to Restriction

This product does not contain substances subject to restriction (Regulation (EC) No. 1907/2006 (REACH), Annex XVII).

### Substance subject to authorisation per REACH Annex XIV

This product does not contain substances subject to authorisation (Regulation (EC) No. 1907/2006 (REACH), Annex XIV)

Ozone-depleting substances (ODS) regulation (EC) 1005/2009 Not applicable

Persistent Organic Pollutants Not applicable

### National regulations

### 15.2. Chemical safety assessment

Chemical Safety Assessments have been carried out by the Reach registrants for substances registered at >10 tpa. No Chemical Safety Assessment has been carried out for this mixture

## **SECTION 16: Other information**

### Key or legend to abbreviations and acronyms used in the safety data sheet

Legend	
TWĂ	TWA (time-weighted average)
STEL	STEL (Short Term Exposure Limit)
Ceiling	Ceiling Limit Value
*	Skin designation
SVHC	Substance(s) of Very High Concern
PBT	Persistent, Bioaccumulative, and Toxic (PBT) Chemicals
vPvB	Very Persistent and very Bioaccumulative (vPvB) Chemicals
STOT RE	Specific target organ toxicity - Repeated exposure
STOT SE	Specific target organ toxicity - Single exposure
EWC	European Waste Catalogue
ADR	European Agreement concerning the International Carriage of Dangerous Goods by
	Road
IMDG	International Maritime Dangerous Goods (IMDG)
ΙΑΤΑ	International Air Transport Association (IATA)
RID	Regulations concerning the International Transport of Dangerous Goods by Rail
